New patients: Sharing your health care records and information

Your patient record will be held securely and confidentially on our electronic system.

If you require treatment in another NHS healthcare setting such as an Emergency Department or Minor Injury Unit, those treating you would be better able to give you appropriate care if some of the information from the GP practice were available to them. This information can now be shared electronically (with your permission) via:-

- 1. SCR - NHS SUMMARY CARE RECORD (used nationally across England)**
- 2. GLOUCESTERSHIRE SHARED HEALTH AND SOCIAL CARE INFORMATION (Joining up your information - JUYI) Used locally across Gloucestershire.**
- 3. ENHANCED DATA SHARING MODEL in SystemOne (EDSM) (Used nationally across all healthcare providers using SystemOne.**

In all cases, the information will be used **only by authorised healthcare professionals** directly involved in your care. Your permission will be asked before the information is accessed, unless the clinician is unable to ask you and there is a clinical reason for access.

Please note that these records are **NOT CONNECTED** with the Health and Social Care Information Centre care.data project and will be used **only** for the purpose of enabling informed care to be supplied directly to you as an individual.

Parents, guardians or someone with power of attorney can ask for people in their care to be opted out, but ultimately it is the GP's decision whether to share information, or not, because of their duty of care.

If you are caring for someone and feel that they are able to understand, then you should make the information about the different methods of sharing available to them.

Please ask a member of the GP practice staff for details of where to find more information about each of the sharing methods.

Are you happy for us to share this electronic information with clinicians in other NHS organisations (and Gloucestershire County Council social care in the case of JUYI) who are involved in your care? If you would rather we didn't we will put an entry on your record which will prevent your information from being shared.

Please select **ONE** option in **ALL** the tables below and complete patient details.
